AIR-POWERED DOOR OPERATORS

ALL ULT and S SERIES AIR-POWERED DOOR OPERATORS are protected against defective materials or workmanship on all parts by a six (6) year prorated warranty. Control modules carry a one (1) year warranty. Items provided as accessories to the operator, such as valves, controls, actuators, or safety devices are covered by separate warranties that vary according to the manufacturer of each accessory. Any door operator that fails during normal operation due to defective materials or workmanship within this period will be repaired or replaced, free of charge, provided that the defective operator or part is returned—freight paid—to the factory. Units in corrosive environments must be installed according to factory-recommended procedures in order to be covered by this warranty. Notification of the defective operator or part must be made in writing within the warranty period, which begins on the date of shipment.
